

Bon Iver - Love More

tom: **Bb** (forma dos acordes no tom de **G**)
 Capotraste na 3ª casa

Chained to the wa-all of our room
 Yeah you chained me like a dog in our room

Then the day was night
 You were high you were high when I was doomed
 And dying for with no light with no light

(F C Am G)
 (F C Am G)

Tied to my bed I was younger then, I had nothing to spend

But time on you, it made me love, it made me love, it made me love more

(F C Am G)
 (F C Am G)

Do what you said the words she said left out
 Over into the sky, oh where soon I'll fly

And then she took her time to believe in, to believe in what, what she said

She made me love, she made me love, she made me love more

She made me love, she made me love, she made me love more

She made me love, she made me love, she made me love more

She made me love, she made me love, she made me love more
