

# Bon Jovi - Live Before You Die

Tom: G

(intro 2x) G C

(verse)

A little boy of nine years old, the whole world in his hands ( G )

Trying to toss that ball across the yard, a game of catch with my old man (bridge)

He'd always say i'm sorry every time he had to leave

And I was much too young to understand what he would say to me

(chorus)

When you're young you always think the sun is gonna shine

There come a day you'll have to say hello to goodbye

Sit down son come take my hand, look me in the eye

Take these words promise me your gonna live before you die

(verse 2)

I was barely seventeen, the summer of seventy nine

Already I was feeling like I was running out of time

I had this girl we fell in love, or should I say that she had me

Then one fateful night changed our lives and made a memory

(chorus)

When you're young you always think the sun is gonna shine  
There will come a day you'll have to say hello to goodbye  
She laid me down she took my hand and looked me in the eye  
And just before she kissed me she said you're gonna live before die

( G )

(bridge)

You learn to love to live

You fight and you forgive

You learn what's wrong and right

You gotta live before you dieeee

I've made mistakes I've caught my breaks, but i've got no regrets

There's some things I don't remember but one thing I don't forget

(chorus)

When you're young you always think the sun is gonna shine  
There will come a day you'll have to say hello to goodbye  
Shout it out let someone somewhere know that your alive  
Take these words wear them well, you gotta live before you die

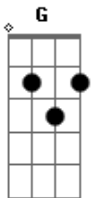

(bridge)

You learn to love to live

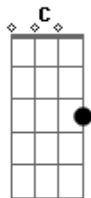

You face the darkest night

Just live before you die
