

Bon Jovi - Live Before You Die

Tom: G

(intro 2x) G C

(verse)

A little boy of nine years old, the whole world in his hands (G)

Trying to toss that ball across the yard, a game of catch with my old man (bridge)

He'd always say i'm sorry every time he had to leave You learn to love to live

And I was much too young to understand what he would say to me You fight and you forgive

(chorus) You learn whats wrong and right

When you're young you always think the sun is gonna shine You gotta live before you dieeee

There come a day you'll have to say hello to goodbye Ive made mistakes I've caught my breaks, but i've got no regrets

Sit down son come take my hand, look me in the eye Theres some things I don't remember but one thing I dont forget

Take these words promise me your gonna live before you die

(verse 2) (chorus)

I was barely seventeen, the summer of seventy nine When you're young you always think the sun is gonna shine

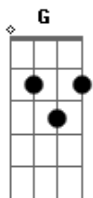

Already I was feeling like I was running out of time There will come a day you'll have to say hello to goodbye

I had this girl we fell in love, or should I say that she had me Shout it out let someone somewhere know that your alive

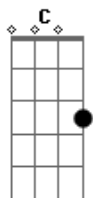

Then one fateful night changed our lives and made a memory Take these words wear them well, you gotta live before you die

(bridge) Just live before you die
