G Bm  
Marry me to the blue sky

Bury me in that long last drop of hard rain

Meet me where they stop time

That's you to me on the shovel that's digging this grave

Till I can waltz on a moonbeam

Till I can find a way to return all tears into wine  
G Bm  
I'll hitch my ride to a day dream

Can't un-kiss the lips that love is leaving behind

I ain't living with the ghost  
C  
No future living in the past

I've seen that hate has done to hop  
D  
Tomorrow wasn't built to last  
C  
I ain't living with the ghost

How can I scream, I'm scared to breathe

I ain't living with the ghost

I set my sails over wheat fields

Rode waves of amber let a new sun shine on my face  
Em Bm  
I dropped the sword, put down my shield  
D  
I left your scars for the stars guiding my way  
C G  
I must admit that I was reeling now I'm feeling just fine  
D C  
Go tell your shadows that I got out alive

[Refrão]

the rope

I ain't living with the ghost
