So you packed your bags you said you're leaving tonight

You gotta catch the last train do the fixing lights

But it's your life?better get on boarder

Got all wound up in your Sunday shoes

You got that lipstick on and nothing to lose

Me baby?I'm singing the blues

<>

Bm Bm7
So go on now just walk away baby

Don?t look back you just drive me crazy

Baby, baby, baby, baby?

<>

A2
Don?t worry about me - I'll get along

Just like the neon signs that's always on

It's alright - I'm open all night

A2
I've been right here waiting no matter how long

I'll keep the jukebox playing our favourite song

Hey If you're lonely - I'm open all night

Open all night - I'll never turn out the lights

Open all night

<>

She waved goodbye said baby good luck

Better chase your dreams before they rust

Get what you can - I hope it's enough

<>

Bm Bm7
Well go on now you're on your way baby

Break some hearts these hearts could break easy

Baby, baby, baby, baby?

<>
