Tom: Gb

```
Gb                           Bbm
It's been the longest winter without you
Ebm Gb               B
 I didn't know where to turn to
Gb                   Bbm
See somehow I cant forget you
Ebm    Gb           B
After all that we've been through

Gb
Go in, come in
Thought I heard a knock
Bbm
Who's there? No one
             Ebm        Gb
Thinking that I deserved it
                            B
Now I realize that I really didn't know
Gb               Bbm
You didn't notice, you mean everything
Bbm
Quickly I'm learning, to love again
Ebm         Gb   B
All i know is, I will be ok

Gb                          Bbm
Thought I couldn't live without you
                            Ebm    Gb
It's gonna hurt when it heals too
                    B
It'll all get better in time
Gb                   Bbm
Even though I really love you
                            Ebm  Gb
I'm gonna smile cause I deserve to
          B           Gb
It'll all get better in time

                        Bbm
How could I turn on the tv
Ebm    Gb                    B
Without something there to remind me
Gb          Bbm
Was it all that easy
Ebm    Gb           B
To just put aside your feelings

Gb
If I'm dreaming
             Bbm
Don't wanna let, hurt my feelings
                Ebm      Gb
But that's the path, I believe in
```

```
                       B
And I know that, time will heal it
Gb                  Bbm
