

# BoyWithUke - Bad Things

tom: [Primeira Parte]

**D**  
Oh, shit, here we go again  
It's the same old lies, same instrument  
Like la-la-la, I'm broken  
I'm dead -Doesn't ever really happen to me anyway-  
If I'd known I'd be where I'm at today  
I think I'd give it all away  
I wish I never left my home

[Pre-chorus]

**G** **A**  
But when I hear you say my name, tell me everything's okay  
I forget about the world, I forget about the pain  
'Cause when I see you wear my shirt, listen to your calming words  
I remember that the rain doesn't hurt me when I say, ay ay

[Refrão]

**G** **A**  
I love it, I love it, I love the fear  
I love the way you make the bad things run away -ay ay, ay ay-  
I love it, I love it, I love the tears  
I love the pain  
You make the bad things run away

[Segunda Parte]

**Bm** **G**  
Shut the fuck up, I don't wanna hear your voice no  
Save your breath or you gon' give yourself a sore throat  
I need a little bit of space, I wanna lay low  
It's okay, I'll make it one day, oh  
Guilty, I'm a counterfeit musician  
I only say the things I say so you will listen  
Some say it's the product of a vision  
I don't fuck with  
It's not my decision

[Pre-chorus]

**G** **A**  
But when I hear you say my name, tell me everything's okay  
I forget about the world, I forget about the pain  
'Cause when I see you wear my shirt, listen to your calming words  
I remember that the rain doesn't hurt me when I say, ay ay

[Refrão]

**G** **A**  
I love it, I love it, I love the fear  
I love the way you make the bad things run away -ay ay, ay ay-  
I love it, I love it, I love the tears  
I love the pain  
You make the bad things run away

[Ponte]

**G** **A**  
I'm better off all by myself  
No one to call, no one will help  
No one at fault, no one can quell  
No I'm not well, no I'm not well  
Irrational, Inadequate  
Unnatural, Inanimate  
I'll never change, I wanna quit  
So full of rage, so full of xxxx

[Refrão]

**G** **A**  
I love it, I love it, I love the fear  
I love the way you make the bad things run away -ay ay, ay ay-  
I love it, I love it, I love the tears  
I love the pain  
You make the bad things run away

[Pre-chorus]

**G** **A**  
But when I hear you say my name, I know everything's okay  
I forget about the world, I forget about the pain  
When I'm struggling to breathe and all I think are bad things  
I remember that you're mine, I remember everything

## Acordes
