

# BoyWithUke - Camouflage

tom:

G

Promise me, promise me

B

You won't try to leave

Fall asleep, fall asleep

C

Hiding in my dreams

Camouflage camouflage

Cm

It's how I hide my thoughts

Sabotage sabotage

G

You know what I'm not

It always starts with my heart, I can feel it go

Skip two beats, a few days, few weeks

C

I get obsessed, I get stressed, feel the weight, on my chest

Cm

It's too much to bear, I don't wanna care, so I wear

Camouflage camouflage

B

It's how I hide my thoughts for you

C

I feel so awful when I run

Cm

But it's harder knowing that you weren't the one

It's like a fire in my throat, I can barely speak

Every single breath

C

Babe, it burns, and it hurts, and you're making it worse?

Cm

But I want to see you again

Camouflage camouflage

B

It's how I hide my thoughts for you

C

I feel so awful when I run

Cm

But it's harder knowing that you weren't the one

I say it all the time

Falling in and out of line

I'm running far, baby

C

I'm a superstar, maybe in another life

We gon' make it out alive

We're counting stars

Say we had it from the start

Camouflage camouflage

B

It's how I hide my thoughts for you

C

I feel so awful when I run

Cm

But it's harder knowing that you weren't the one

B

You weren't the one for me, it's true

C

But I feel lonely without you

Cm

You were the only one

G

The only one I'd choose

## Acordes
