

BoyWithUke - Ghost

tom:
 Ab (forma dos acordes no tom de G)
 Capostraste na 1ª casa

I should've told you
 When I had the chance
 Lost in the memories we don't have
 I wanted to hold you
 In hopeless romance
 Mmm, you fade like a ghost

I've been from London to Aberdeen (wow)
 Inside a coupe and from inside a private limousine (cool?)
 Do you think it really matters if I wear designer? (No)
 'Cause I don't
 If I don't have her what's the point of finer things?
 I'm ex nihilo like Augustine (amen)
 But I confess I haven't been the best internally (why not?)
 I keep seeing two moons in my dreams (again?)
 Could you tell me what they really mean?

I should've told you
 When I had the chance
 Lost in the memories we don't have
 I wanted to hold you
 In hopeless romance
 Mmm, you fade like a ghost

Can you catch me when I fall? (fall)
 I'm in love with the idea (idea)
 Of who you are
 (I'm in love with a lie)
 I try to look the other way
 But I'm lying to myself

I never wanted It to end
 I had no other option
 I had to find a way to leave before you walked in
 At the end the chase was all I really wanted
 But it's too late for that, you give heart attacks
 And I find it hard to sleep (it's hard to sleep)
 'Cause I'm afraid of ghosts and I can hear you talking (blah, blah, blah)
 So perpetual, you show no sign of stopping (stop)
 It's too late for that, can't you understand?

I should've told you (told you, told you)
 When I had the chance (I had the chance, I had the chance)
 Lost in the memories we don't have (we never had, we never had)
 I wanted to hold you (wanna hold you, wanna hold you)
 In hopeless romance (hopeless romance)
 Mmm, you fade like a ghost
 (Like a ghost, like a ghost)
 (Dm7 G7 Em F)
 (Dm7 E7 F7M Em)

(I should've told you)
 (When I had the chance)
 (Dm7 G7 Em F7M)

You could at least just make it easy (easy)
 You know I hate being so needy (needy)
 Got my attention on a leash and I don't want it back
 Unintentionally acting creppy (creppy)
 In front of her but she can't see me (can't see)
 I think she thinks I'm on the spectrum (oh)
 I'm pretty sure she wants to leave (wants to leave)
 And I don't blame her
