tom:

Intro: C G B Em  
 Em B C G B

No matter what I do  
 I can't love because of you  
 You fucked me up and put me out of tune  
 I do my best to fake that I'm good  
 But I forget my place too soon  
 Oh, can't you say goodbye  
 To the scars you left behind  
 How 'bout you get the fuck outta my mind  
 I swear that I can't feel love  
 Oh, won't you say goodbye  
 To all my butterflies  
 I can't look you in your eyes again
