

# BoyWithUke - Understand

tom:

Em

[Chorus]

Em

Girl, I hope you understand

C

I wanted to hold your hand

G

But I can't, wanted to be your man back then

B

Em

And you knew I fell for you but you

C

Just broke my heart in two

G

I was sad, mad and broken on my bed

B

Hoping I get rid of all the voices in my head

[Verse 1]

Em

I was opening a packet of an undeveloped med

C

When I was met with a prescription of a bullet made of lead

G

And when I woke up in an hour in a pool of my own sweat

B

I said, "I swear to God I'll never even try to sleep again"

Em

So instead I took my pen and started writing evidenc?

C

And when I started making sens?

I found that I had reached the end

G

Oh, I'm upset, I have no friends

You wanna bet you're just pretend?

B

You're just a pet confined within the lines of writing

You're not shit

Em

I thought I stopped my psychopathic ways, I swear I did

G

I said I talked to people 'bout the problematic life I lived

B

Em

They were my neighbors, razor blades

C

And different flavored pills I hate

G

Therefore I'm not sure, leave my last straw

B

I'm so glad, stuck in the past, I said that

[Chorus]

Em

Girl, I hope you understand

C

I wanted to hold your hand

G

But I can't, wanted to be your man back then

B

So far I never held you with my arms

C

So it's hard to be the one you aren't

G

With instead filled with anxiety

B

Always was a part of me, guess I'm not cut out to be

[Verse 2]

Em

Somebody 'cause it's not me

C

I'm not used to all the talk, it was an introvert

That had converted feelings in the writing

G

Used to cope with all my problems

Using notes and lots of rhyming

B

Used to hope for better days whenever

That's 'bout make me crying

Em

I'm not lying when I say that I would rather die than go back

C

To the times I would try be the guy the people know

G

I was fighting with the demons hiding far beyond my eyelids

B

On an island full of violence in my head that I could pilot

Em

Oh, the sun don't shine, the skies turn gray

C

I feel it coursing through my veins

G

I said before I'm not okay

B

But you don't listen anyway

Em

You know I tried, you turned away

C

You straight up lied right to my face

B

G

You fucked my life, ruined my day

B

But you don't know, so I'll say

[Bridge]

Em

Nothing can fill this silence, no one can love like I did  
(You don't know so I'll say)

C

Nobody cares, you lied, it's not fair, you still deny it  
(So I'll say)

G

B

Nothing can fill this silence, no one can love like I did  
(You don't know so I'll say)

Em

C

Nobody cares, you lied, it's not fair, you still deny it  
(So I'll say)

G

B

[Chorus]

Em

Girl, I hope you understand

C

I wanted to hold your hand

G

But I can't, wanted to be your man back then

B

Em

Too bad I know I can't wake up

C

Because I lost my weight and you don't give a fuck

G

B

About me, this could be a dream, I can't see

The things that you see, so please, oh

Em

Girl, I hope you understand

C

I wanted to hold your hand

G

But I can't, wanted to be your man back then

B

Em

You know I'll play along you

C

Were my home I wrote you songs

G

And now you're dead to me effectively

**B**  
**Acordes**

**Em**

Removed yourself outside my dream
