

Brand New - Play Crack The Sky

Tom: G
 Intro: G C G C
 G C Em7 B7sus4
 We sent out the SOS call
 G C
 It was a quarter past four
 G
 In the morning
 C Em7 B7sus4
 When the storm broke our second anchor line.
 G C
 Four months at sea.
 G C
 Four months of calm seas
 G C
 Only to be pounded in the shallows
 Em7 B7sus4
 Off of the tip of Montauk Point.
 G C
 They call them rogues.
 G C
 They travel fast and alone,
 G C
 One hundred foot faces
 Em7 B7sus4
 Of God's good ocean gone wrong
 G C
 What they call love is a risk,
 G C
 Cause you will always get hit
 G
 Out of nowhere
 C Em7 B7sus4
 By some wave and end up on your own.
 C G B7sus4
 The hole in the hull defied the crews attempts
 Em7
 To bail us out.
 C G
 And flooded the engines and radio
 Em7 B7sus4
 And half buried bow.
 G C
 Your tongue is a rudder.
 G C
 It steers the whole ship.
 G C
 Sends your words past your lips
 Em7 B7sus4
 Or keeps them safe behind your teeth.
 G C
 But the wrong words will strand you.
 G C

Come off course while you sleep.
 G C
 Sweep your boat out to sea
 Em7 B7sus4
 Or dashed it to bits on the reef.
 G C
 The vessel groans
 G C
 The ocean pressures its frame.
 G C
 Off the port I see the lighthouse
 Em7 B7sus4
 Through the sleet and the rain.
 G C
 And I wish for one more day
 G C
 To give my love and repay debts.
 G C
 But the morning finds our bodies
 Em7 B7sus4
 Washed up thirty miles west.
 C G
 They say that the captain
 Em7
 Stays fast with the ship
 B7sus4
 Through still and storm.
 C G
 But this ain't the Dakota.
 Em7
 And the water is cold.
 B7sus4
 We won't have to fight for long.
 G
 This is the end.
 This story's old
 But it goes on and on
 C
 Until we disappear.
 Calm me and let me taste
 The salt that you breathed
 G
 While you were underneath.
 I am the one who haunts your dreams
 C
 f mountains sunk below the sea.
 I spoke the words but never
 Em7
 Gave a thought to what they all could mean.
 I know that this is what you want.
 B7sus4
 A funeral keeps both of us apart.
 You know that you are not alone.
 G
 Need you like water in my lungs.
