Brandon Heath - Listen Up

Tom: G

Afinação: D G C F A D

ver outros tons

```
  C           G           D
Why are you crying
        C    G       D
Did I say something wrong
                 C          G
Were'nt we just talking
            C    G     D
Tell me whats going on

        Em            C
Cause I'm pretty sure my intentions
    G                      C
Were nothing more than conversation
Em          C
Maybe you just needed someone
   G              D
To listen to your heart

        C           D
Maybe I spoke too soon
        Em      D
Maybe I said too much
         C         D
Now that my face is blue
              Em  D  G
Think it's time I listen up
            C    D    G
I've already said enough
```

```
  C          G          D
Sometimes I do this
              C   G   D
Thing is I'm so afraid
               C           G
When it get's quiet
             C   G    D
What you might have to say

              Em
Cause I'm guilty of
            C
Overcompensation
G
I'm lost in my
C
Own translation
Em            C
I apologize, I know I
         G             D
Should listen to your heart

Chorus
            C           D
Maybe I spoke too soon
            Em      D
Maybe I said too much
             C         D
Now that my face is blue
                  Em  D  G
Think it's time I listen up
                C    D    G
I've already said enough
```
