

Brandy Clark - Hold My Hand

tom:
 Capotraste na 3ª casa

Raven is the color of her long, curly hair
 Red is the dress that she knows how to wear
 Bluest eyes I've ever seen - maybe just a touch of green
 Oh, she could steal most any woman's man
 This'd be a real good time to hold my hand

She walked up and said, "hello, it's been awhile"
 Don't think I didn't notice the nervous in your smile
 Wasn't that long ago
 You were a whole lot more than friends
 This would be a real good time to hold my hand

[Refrão]

Don't let this moment linger
 Now would be the time
 To reach out with your fingers

And get 'em tangled up with mine
 Let her know for sure that I'm more than just
 a soft place to land
 This'd be a real good time to hold my hand

[Ponte]
 If I'm your future and she's your past
 If it's over with her and our love's gonna last

[Refrão]
 Don't let this moment linger
 Now would be the time
 To reach out with your fingers
 And get 'em tangled up with mine
 Let her know for sure that I'm more than just
 a soft place to land
 This'd be a real good time
 Oh, this would be a real good time
 This'd be a real good time to hold my hand
