

## **Bridgit Mendler - Forgot To Laugh**

```
When I read your face It's like a screen door
I can see right through Your heart's a window
Why you gotta treat me like the bimbo?
The sticks are out
And you don't care anymore
F Bb
You make it so easy
You're sweet like a Reese's Pieces
       Bb
F But I promise, if you leave me
You'll be crawling on your knees
Bb C
So if you go it's a joke
If you drive away
Hope you get a flat tire, get stranded
If it's goodbye today
Know you're leaving here empty handed
'Cause I got my own life
Dm C
And you're just a punch line
Bb C
If you go, you're a joke
I forgot to laugh
You don't like it when I check your iPhone
I don't even get my own ring tone
When you're hanging out with all your best bros
You don't wanna tell me where you guys go
You say that I'm needy
Like a kid needs Reese's Pieces
But I promise if you leave me
You'll be running back to me
At my door, what a joke
  Bb
F If you drive away
Hope you get a flat tire, get stranded
     Bb
If it's goodbye today
Know you're leaving here empty handed
                                                              I forgot to laugh
```

## Acordes

```
'Cause I got my own life
And you're just a punch line
If you go, you're a joke
I forgot to laugh
So if you're saying 'peace' like
You're so over me
Tryin' to sting like a bee \frac{\mathsf{C}}{\mathsf{C}}
Then I gotta laugh
You're more like a jockey
Or a cute little bunny
Think that you're funny
Then I gotta laugh
 Bb F Dm C
Laugh
                 Bb
Like a diamond in a mountain of coal
I'm the girl the guys can't find anymore
Hey yeah!
If you drive away
Hope you get a flat tire, get stranded
         Bb
If it's goodbye today
Know you're leaving here empty handed
         Bb
'Cause I got my own life
And you're just a punch line
Bb C
If you go, you're a joke
I forgot to laugh
If you drive away
Hope you get a flat tire, get stranded
If it's goodbye today
Know you're leaving here empty handed
'Cause I got my own life
Dm C
And you're just a punch line
If you go, you're a joke
I forgot to laugh
{Na na na na...} x3
```
