

Bring Me The Horizon - Sleepwalking

Tom: E

(com acordes na forma de Capotraste na 4ª casa) C)

My secrets are burning a hole through my heart

And my bones catch a fever

When it cuts you up this deep

It's hard to find a way to breathe

(Pré-Refrão)

Your eyes are swallowing me

Mirrors start to whisper

Shadows start to sing

My skin's smothering me

Help me find a way to breathe

(Refrão)

Time stood still

The way it did before

It's like I'm sleepwalking

Fell into another hole again

It's like I'm sleepwalking

I'm at the edge of the world

Where do I go from here?

Do I disappear?

Edge of the world

Should I sink or swim?

Or simply disappear?

(Pré-Refrão)

(Uma batida em cada nota)

Your eyes are swallowing me

Mirrors start to whisper

Shadows start to sing

My skin's smothering me

Help me find a way to breathe (Normal)

(Refrão)

Time stood still

The way it did before

It's like I'm sleepwalking

Fell into another hole again

It's like I'm sleepwalking

Take my hand and
