

## **Britney Spears - Man On The Moon**

```
Tom: Bb
 (com acordes na forma de G )
Capostraste na 3ª casa
                     ( Em )
Dark mascara dripping down my face
( G )
                   ( Em )
Only fools could ever feel this way
                  ( Em )
Send my message into outer space
( G )
                ( Em )
Wonder if it's gonna float your way
I can't compete with the stars in the sky
I'm invisible, invisible
I open the window to clear up my mind
But it's difficult, so difficult
Houston, I know there's a problem here
Must be a hole in the atmosphere
Baby, I wanna be closer to love
Patience, darling, wait for the night
                    D
Darkness comes and love comes alive
I've been right here dreaming of you
           D G Em C D
Waiting for my man on the moon... moon..
Last night I was in your arms so strong
                        Em
One small step and, baby, you were gone
                           Em
Now there's meaning in the saddest songs
All I do is cry and sing along
Drinking alone in my party dress
```
