

# Britney Spears - Shadow

Tom: C

Your body's warm  
 But you are not  
 You give a little  
 Not a lot  
 You coup your love until we kiss  
 You're all I want but not like this  
 I'm watching you disappear  
 But you, you were never here

Chorus

It's only your shadow  
 Never yourself  
 It's only your shadow  
 Nobody else  
 It's only your shadow  
 Filling the room  
 Arriving to late  
 And leaving too soon  
 and leaving too soon

Your body gives  
 But then holds back  
 The sun is bright  
 The sky is black  
 Can only be another sign  
 I can not keep what isn't mine  
 You left ?but still? linger on  
 But you, you were almost gone

Chorus

How can I tell you if you mean what you say?  
 You say it so loud but you sound far away  
 Maybe I had a just glimpse of your soul  
 Was that your shadow I saw on the wall  
 I'm watching you disappear  
 But you, you were never here

Chorus x2

Oh  
 It's only your shadow
