

Britney Spears - Shadow

Tom: C

Your body's warm
 But you are not
 You give a little
 Not a lot
 You coup your love until we kiss
 You're all I want but not like this
 I'm watching you disappear
 But you, you were never here

Chorus

It's only your shadow
 Never yourself
 It's only your shadow
 Nobody else
 It's only your shadow
 Filling the room
 Arriving to late
 And leaving too soon
 and leaving too soon

Your body gives
 But then holds back
 The sun is bright
 The sky is black
 Can only be another sign
 I can not keep what isn't mine
 You left ?but still? linger on
 But you, you were almost gone

Chorus

How can I tell you if you mean what you say?
 You say it so loud but you sound far away
 Maybe I had a just glimpse of your soul
 Was that your shadow I saw on the wall
 I'm watching you disappear
 But you, you were never here

Chorus x2

Oh
 It's only your shadow

Acordes
