

Britney Spears - Showdown

Tom: **G**

Yeah
Sometimes I just love to have that out
Just something a girl gotta do, oh

Never thought I'd see you like this
You're looking good when you're half dressed
Just let me give you one last test
Is that a sin? **Am** I too hot for you though
Did you check out my video
There's something you don't know
Like this

I dare you to stand in my way
Just give in when you are ready to play
Like this

Here comes the Showdown
What goes around comes around
And the crowds are waiting, oh
'Cause if we break up
Then we can make up
Check my booty all night

Here comes the Showdown

I don't really wanna be a tease
Would you undo my zipper, please
Uh uh, please don't talk...Listen
I'll let you touch me if you want
I see your body rise, rise
And when you come, don't get too hot
Butterfly

I dare you to stand in my way
Just give in when you are ready to play
Like this

CHORUS

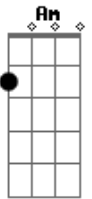

Forget the tension
When we fight
We'll make it up
Turn down the lights
It's just a lover's game we play
After the screamings at an end
Why don't we do it all again
That's when the fun really begins

CHORUS 2X

Acordes
