

Britney Spears - Walk on by

Tom: **Bb**

I'm coming down with a heartache tonight,
 Only you can make it right,
 if I can't be with you holding you tight
 there won't be no morning light

everywhere I turn, I see your face
 reminding me of a higher place
 everytime u smile, angels cry,
 everytime you walk on by.

I'm not the only , feeling lonely
 everytime you walk on by.
 I tried to say something, but end up with nothing
 everytime you walk on by

I keep my cool
 and pretend I'm not in
 everytime you come too near
 I'm such a fool coz,
 this love is true and if I dont tell u someone else surely

will.

everywhere I turn, I see your face
 reminded me of a higher place
 everytime u smile, angels cry,
 everytime you walk on by.

I'm not the only , feeling lonely
 everytime you walk on by.
 I tried to say something, but end up with nothing
 everytime you walk on by

If I ever see you again,
 this craziness must find an end
 I look at u and I promise myself..

I'm not the only , feeling lonely
 everytime you walk on by.
 I tried to say something, but end up with nothing
 everytime you walk on by

fade out..
