

# Britney Spears - Walk on by

Tom: **Bb**

I'm coming down with a heartache tonight,  
 Only you can make it right,  
 if I can't be with you holding you tight  
 there won't be no morning light

everywhere I turn, I see your face  
 reminding me of a higher place  
 everytime u smile, angels cry,  
 everytime you walk on by.

I'm not the only , feeling lonely  
 everytime you walk on by.  
 I tried to say something, but end up with nothing  
 everytime you walk on by

I keep my cool  
 and pretend I'm not in  
 everytime you come too near  
 I'm such a fool coz,  
 this love is true and if I dont tell u someone else surely

will.

everywhere I turn, I see your face  
 reminded me of a higher place  
 everytime u smile, angels cry,  
 everytime you walk on by.

I'm not the only , feeling lonely  
 everytime you walk on by.  
 I tried to say something, but end up with nothing  
 everytime you walk on by

If I ever see you again,  
 this craziness must find an end  
 I look at u and I promise myself..

I'm not the only , feeling lonely  
 everytime you walk on by.  
 I tried to say something, but end up with nothing  
 everytime you walk on by

fade out..
