tom:

Intro: B  
 B E B  
 I've seen the future, but I can't go there  
 It flows with milk and honey and our children's swear  
 They'll never have to work, they'll never have to care  
 I've seen the future, but I won't be there

B E B  
 I learned about the future, when I was young  
 I learned about the world and how It's come undone  
 I learned about fear of strangers and guns  
 I learned about the future and It's no fun

 I heard about the future from my neighbor John  
 He told me from the safety of this perfect lawn  
 If they move in, it won't be long

I heard about the future and it sounds all wrong

B E B  
 I think about the future when I see your face  
 I think about youth and how we're parting ways  
 I think about God, I think about faith  
 I think about the future and I hope there's grace

E B Abm

B E B  
 I prayed about the future and I understood  
 All this talk about time will never do much good  
 If I want things different, I gotta quit this doubt  
 I gotta keep on praying and live love out  
 I gotta keep on praying and live love out
