

Bruce Springsteen - Chain Lightning

tom:
 Em
 Well there's a rumble in the park, there's a thunder in the dark
 Em
 The night's so quiet, it's chain lightning
 Em
 Beneath a street light two boys bopping in the night
 Em
 They have something that I call, chain lightning
 A G
 Though you never hear a sound, there's fire underground
 Gb B
 Rambling through the town, you can't keep it from coming down
 Em
 Lovers walking through the mist, Romeo he steal a kiss
 Em
 Caught up in the moment at chain lightning
 Em
 Now I don't know about romance, baby, the latest dance
 Em

Everybody's getting up, doing it, chain lightning
 Em
 All along the strand, baby, down in jungleland
 Em
 Everybody's caught up in chain lightning
 A G
 Ever hear the sound of a fire underground
 Gb B
 Rumbling through the town, the big cold is coming down
 Em
 Sitting at the light, I'm a rider in the night
 Em
 Streaking light to light for chain lightning
 [Solo] Em A
