A Intro: Gbm G7M Gbm A Aadd9
       Gbm G7M Gbm A Aadd9
I'm just a feeling that you can't control
          Gbm
This could be a dream
                  Aadd9
    Α
Guess we'll never know
                  G7M
You tell me it situated wrong
     Gbm
There's a heaven here
    A Aadd9
In the moving on
Why? Ask me to name it
Why? Not yours to take
It's mine
                    A Aadd9
Where is the time we wasted?
     Gbm
Identify
See if it's what you like
There, in your concrete mind
You're so afraid to live your life right?
I pulled the lever
Colors bleed together
I reli?ve the pressure
                   Aadd9
You're dancing with devils of mine
A careless pleasure
Words keep it together
But floating feels better
                   Aadd9
      Α
You're dancing with devils of mine
I had a vision I was made of gold
   Gbm
Woke up in distress
A Aadd9
Had to let it go
And if you can't keep up with lies you told
     Gbm
Really who's it for?
                Aadd9
       Α
You know I'm not sold
Why? Ask me to name it
