

# Bukns - Lovesick Melody

tom:

C

C7M

As we started so nonsense  
Feelings burned in a full gas

And we go by

Our lovesick melody goes by  
How are you feeling now?

Can you watch me?

Disguises seems to get out

'Cause i was falling for you somehow

[Pré-Refrão]

'Cause i would go with you

Would go with you

Would go with you

'Cause i've told you

[Refrão]

What left to do?

What left to say?

Dive in, just dive in

So let me prove and we can taste

Dive in, just dive in

What left to do?

What left to say?

Dive in, just dive in

So let me prove and we can taste

Dive in, just dive in

Just dive in

[Interlúdio] C7M Db4 D Em

As all changed when the cold came  
Stolen hearts and then we sorrow apart

And time goes by

Our lovesick melody goes by

Now after so much time

We're seeing each other face to face

Things seems like, settle down

And it felt just like it used to be

[Pré-Refrão]

And i'll go with you

Will go with you

Will go with you

'Cause i'm telling you

[Refrão]

What left to do?

What left to say?

Dive in, just dive in

So let me prove and we can taste

Dive in, just dive in

What left to do?

What left to say?

Dive in, just dive in

So let me prove and we can taste

Dive in, just dive in

Just dive in

( G A G Am )

Won't you wanna stay

Please don't run away

Won't you wanna stay

Let's leave this alleyways

Won't you wanna stay

Please don't run away

Won't you wanna stay

Let's leave this alleyways

[Refrão]

What left to do?

What left to say?

Dive in, just dive in

So let me prove and we can taste

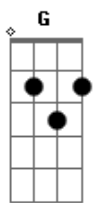

Dive in, just dive in

Just dive in

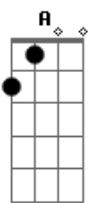

Just dive in

( Db4 D Aadd9 )
