Tired and lonely still we stand  
on a road to nowhere

Trapped in a world of endless days  
my engine's stalling (road to nowhere)

Body and mind are breaking down  
on this road to nowhere

Destiny silent hear no sound  
as i wait forever

Farewell, i'll miss you

'Cause it tore us apart right from the start

Feeling have failed me  
left me cold  
on this road to nowhere

Dreams are my saviors  
save me now

Candles burn slowly,  
Flames shine so brightly  
Light in the darkness,  
Save me from madness again  
Only the lonely,  
could possibly know me  
Heat keeps on rising,  
Fire engulfs me again

i'm sick of these goodbyes  
'Cause it tore us apart right from the start  
A  
I miss you

G A  
Farewell, i'll miss you

'Cause it tore us apart right from the start
