

# Cake - Jolene

Tom: A

Abm E B Gb

This part is repeated through pretty much the whole song. The only change to the rhythm is the breakdown at the end of the song. It's just a Abm repeated real chunky and palm-muted.  
 √

Now the lead is really cool sounding and pretty fun to play, you just have to get the rhythm down. You can alternate the 1 and the 4 in parenthesis at the end just for variation.

There is also another part I notice no one ever tabs. During the second verse there is a quiet harmonic guitar arpeggiating in the background.

If you want to throw in a neat solo or something just for fun, I suggest Abm pentatonic with some blues notes. Here it is for those of you who don't know it.

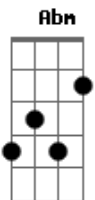

4fret |5th |6th |7th

Have fun and remember music rocks!  
 to talk. Cause'  
 it just seems like it's really hard  
 Well Peace Out! and Rock On!
