I need some hope for a change, I just can't fall tonight

I've seen violent waves, they came to drag me down

I believe in me, I believe in what is true to me

All you need to say is all you got to say, really

But when it seems that I can't go any far, you still hang on

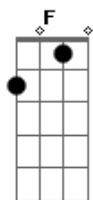

So I need some shelter, will you come and help me out?

Instrumental: F - G - Am - Am (x2)

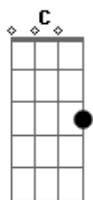

I need some shelter from the rain until I drown

I need some shelter, will you come and help me out?
