

# Camila Cabello - She Loves Control

Tom: D

Intro: Bm Em Gb4

Cold, 'cause she has been here before  
 She doesn't cry anymore, no looking back  
 No, she doesn't go to the bar  
 Too many lovers she scarred, and they want her back  
  
 She loves control, she wants it her way  
 And there's no way she'll ever stay unless you give it up  
 She loves control, she wants it her way  
 And all it takes is just one taste, you wanna give it up  
  
 Bold, you know she lives for the thrill  
 You know she lusts for the kill so they won't come back  
  
 No, no, no, no, no, no  
 Don't, don't you try taming the storm  
 Don't say you haven't been warned  
 'Cause she won't like that, like that  
  
 'Cause he loves control, she wants it her way  
 And there's no way she'll ever stay unless you give it up

She loves control, she wants it her way  
 And all it takes is just one taste, you wanna give it up

 But the way she kills you makes you feel alive  
 And you know that it feels right
