

# Camp Rock 2 - You're My Favorite Song

Tom: **Db**

Words don't come easy  
Without a melody  
I'm always thinking  
In terms of do-re-mi  
I should be hiking, swimming  
Laughing with you  
Instead, I'm all out of tune

But what you don't know  
You lift me off of the ground  
You're inspiration  
You helped me find my sound  
Just like a baseline in half-time  
You hold down the groove  
That's why I'm counting on you

And if I heard you on the radio  
I'd never want to change a single note  
It's what I'm trying say all along

You're my favorite song

I'm in a session, writing tracks  
You got another class to teach  
And then rehearsal with the band  
You're always one step out of reach  
I'm looking for some harmony with you  
It comes so naturally  
You help me find the right key

And when I hear you on the radio  
I never want to change a single note  
It's what I tried say all along  
You're my favorite song  
My favorite song

And when I hear you on the radio  
I never want to change a single note  
It's what I tried say all along  
You're my favorite song  
You're my favorite song
