

# Canyon City - Wish List

tom:

Intro: Db Gb Db Gb

Db Ab Bbm  
Say, call out

Tear out a page and we'll make up a list like

Paper planes and cliffs I

Brace for the fall now

Rush of the air as we're losing control so

Everyone's scared I know though

Has it ever been better than this

Moment I'm with you

In the weather it's shelter in risk it's

Always a simple truth

You're my measure by letter my wish list

All I could write

You're a new line

Days slow down

Now that I let go of all I can't touch

All that I have is so much what

Stays close now

Holds all my life in the lines of a fist

Tightly yet everything fits has

Has it ever been better than this

Moment I'm with you

In the weather it's shelter in risk it's

Always a simple truth

You're my measure by letter my wish list

All I could write

You're a new line

My wish list, all I could write

My wish list, all right beside me

My wish list it's just I

I've never been better than this

Moment here with you

In the weather it's shelter in risk it's

Always a simple truth

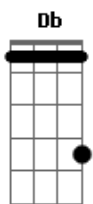

You're my measure by letter my wish list

All I could write

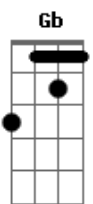

You're a new line

You're a new line
