Intro: Cadd9 G G

Hô hô hô hô

Ah... Amazônia livre

Hô... Amazônia vive

Lirismo das flores, miríades

Folhas que caem

O rio que vai terra molhada

Pássaros erguendo o canto

Quando livre sobre o manto viver, viver

Gaiotas rasgando os céus

Cardinais rondando o cais

Sonhos que sempre sonhei, assim será

O olho de vidro vê

O que o olho de Tupã previu

Lágrimas de orvalho

Aos pés da flor silvestre que caiu

Cinzas troncos retorcidos

Já não ouço as Itaranas

Esquecidas já não tocam aqui

O Cariboca do igapó o fênix e o tucuxi

Nas gotas do sol vão partir, o fim será

São quinhentas luas

Sobre as penas do cocá

A guerreira terna nua vem pedir

Não deixe o verde chorar

Não deixe o rio secar

Amazônia azul, o Caprichoso azul

Que te acoberta vem pedir, vem pedir

Amazônia livre

Amazônia vive ih ih ih livre e vive

Amazônia livre

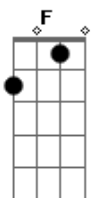

Amazônia vive ih ih ih livre e vive
