

# Carly Rae Jepsen - Heavy Lifting

Tom: C

You undo me C  
 I'm a happy mess C  
 My dress slips to the floor F  
 And I pose, what an amateur F  
 To be like this! "exposed" C  
 You deny the other side of me C  
 That strips good love away F  
 And you kissed my mirror reflection F  
 When I looked at me today G  
 When you look at me the way you do C  
 My fingers tingle F  
 I can't breathe until we're skin on skin C  
 When you look at me the way you do F  
 My life moves in perfect motion C  
 You're doing all the heavy lifting C  
 Worlds collide C  
 I see a side of you F  
 I never saw before F  
 We can work it out, let's talk it out C  
 I want to know you more C  
 Just decided C  
 That I'd like to side with you F  
 Oh every time F  
 When you ask me how I'm feeling now G

You know I'm feeling fine C  
 When you look at me the way you do F  
 My fingers tingle Am  
 I can't breathe until we're skin on skin G  
 When you look at me the way you do C  
 My life moves in perfect motion F  
 You're doing all the heavy lifting Am G  
 Oh, look at me the way you do C  
 Look at me the way you do F  
 Look at me the way you do Am G  
 Oh, look at me the way you do C  
 Look at me the way you do F  
 Look at me, look at me the way you do Am G  
 When you look at me the way you do C  
 My fingers tingle F  
 I can't breathe until we're skin on skin C  
 When you look at me the way you do F  
 My life moves in perfect motion G  
 You're doing all the heavy lifting C  
 Oh, look at me the way you do F  
 Look at me the way you do Am G  
 Look at me, look at me the way you do C  
 Oh, look at me the way you do F  
 Look at me the way you do Am G  
 Look at me the way you do C  
 When you look at me the way you do my... F
