

Carmen - Meeks

Tom: G
Intro: D Gb G Gm

Let's take it back to where we were
With simple love and hot temperatures
My friends says I'm away too much
So I grab my stuff and give it up
I'm driving around the city we fell in love
But now it's not so pretty
'Cause you're not here by my side
I thought you said you'd stay here 'till you die
But I stick to the plan, the one you demanded
It's a part of a sin, I want simple things
Instead we're stuck in a parallel universe that was written just
for her
Why did you bring me to this messed up party?
They are playing our song, and I want to go home
But my ride is gonna have to stay a little bit more
'Cause her iPhone got some white lines
And I could easily ask for their opinions
But they always find the worst
They always find the worst
'Cause they only see the worst things in us
And I could easily ask for their opinions
But they always find the worst
They always find the worst
'Cause they only see the worst things in us
(D Gb G Gm)
Well, now I know that it's too late

I will not think you're misbehaved
It's a part of a system that we can't control
And I'm pretty sure they already know
That you're often around new people
We can't keep up with, but it's not our business
I don't regret a thing I've said
But I'm afraid they forget my name
But don't you dare to say I have changed
I still the same guy, depressed and high
I just want you to know that the time we were together
You made me feel so good
But I understand if you never want to talk to me again
Just don't pick up your phone around 10 PM
'Cause it's probably me in my parents car again
And I could easily ask for their opinions
But they always find the worst
They always find the worst
'Cause they only see the worst things in us
And I could easily ask for their opinions
But they always find the worst
They always find the worst
'Cause they only see the worst things in us
And I could easily ask for their opinions
But they always find the worst
They always find the worst
'Cause they only see the worst things in us
And I could easily ask for their opinions
But they always find the worst
They always find the worst
'Cause they only see the worst things in us
