

The Carpenters - Love Me For What I Am

Tom: C

We fell in love on the first night that we met
 Together we've been happy, I've had very few regrets
 The ordinary problems have not been hard to face
 But lately little changes have been slowly taking place
 You're always finding something is wrong in what I do
 But you can't re-arrange my life because it please you

G7
 You've got to

C Love me for what I am for simply being me
 Dm Don't love me for what you intend, or hope that I will be
 Em And if you're only using me to feed your fantasy
 Dm you're really not in love so let me go
 G7 I must be free

C
 G
 If what you want is unnatural for me

Em I won't pretend to keep you, what I am I have to be
 F The picture of perfection is only in your mind
 Am For all your expectations, love can never be designed
 Em We ought to take each other for everything we are
 F Or leave a life we've made behind, and make another start
