

The Carpenters - Love Me For What I Am

Tom: C

We fell in love on the first night that we met
 Together we've been happy, I've had very few regrets
 The ordinary problems have not been hard to face
 But lately little changes have been slowly taking place
 You're always finding something is wrong in what I do
 But you can't re-arrange my life because it please you

G7
 You've got to

Love me for what I am for simply being me
 Don't love me for what you intend, or hope that I will be
 And if you're only using me to feed your fantasy
 you're really not in love so let me go
 I must be free

If what you want is unnatural for me

I won't pretend to keep you, what I am I have to be
 The picture of perfection is only in your mind
 For all your expectations, love can never be designed
 We ought to take each other for everything we are
 Or leave a life we've made behind, and make another start

G7
 You've got to

Love me for what I am for simply being me
 Don't love me for what you intend, or hope that I will be
 And if you're only using me to feed your fantasy
 You're really not in love so let me go
 I must be free

And if you're only using me to feed your fantasy
 You're really not in love so let me go
 I must be free
