

Cascada - Ready For Love (Unplugged)

tom:

Intro: Dm Badd9 F C

You took a piece of my heart

I never thought that this could fall apart

You said you fell in love

And this was more than I had ever been afraid of

Another life, another happy ending cuts like a knife

Another place, another time

Another hand to touch, another sun to shine

You got me deeper than deep and I'm constantly blinded

I'm running around but there's no place to hide

I start to talk in my sleep, our souls are divided

Why can't they forgive me these demons inside?

Deeper than deep and I'm constantly blinded

My heart starts to shiver for it was not enough

I start to talk in my sleep, 'cause our souls are divided

How can it be that you're ready for love?

(Dm Badd9 F C)

Time will tell a single day had helped me break this spell

Don't want to be alone

When will I be understood when is my kingdom to come?

Another boy, another life, another happy ending and I'll be alive

Another place, another time

Another hand to touch, another sun to shine

You got me deeper than deep and I'm constantly blinded

I'm running around but there's no place to hide

I start to talk in my sleep, our souls are divided

Why can't they forgive me these demons inside?

Deeper than deep and I'm constantly blinded

My heart starts to shiver for it was not enough

I start to talk in my sleep, 'cause our souls are divided

How can it be that you're ready for love? ready for love?
