[Primeira Parte]

She's a castaway
Stranded on the island of her yesterdays
Freedom was her ocean, but she got swept away
Little princess dreaming got lost somewhere in the waves

[Segunda Parte]

Left behind
She's been going at this all alone since she was nine
But God loves you, He's got a plan for you, she's heard all the lines
But when she opens up her heart nobody's got the time

[Pré-Refrão]

Could this be the day that you come to the rescue?
She's desperate for the light but she's never gonna ask you

One word, one hand
Tell me is that too high a price
One awkward moment
Could be the one that saves a life
Your hurt, your scars
God will use to open up her eyes
One awkward moment

You'll see the gospel come alive
Come alive

[Terceira Parte]

Who are you to say
You've got shipwrecks of your own
You're too young in your faith
She's a smart one, she will see right through your masquerade
You're scared that what you don't know might push her away

[Pré-Refrão]

But don't cave to the weight of the fear that you're feeling

'Cause she's standing right here and you're here for a reason

One word, one hand
Tell me is that too high a price
One awkward moment
Could be the one that saves a life
Your hurt, your scars
God will use to open up her eyes
One awkward moment

You'll see the gospel come alive
Come alive

[Ponte]

You've walked in her shoes
You've heard the lies, you know the pain
But He's still the truth, He's still the life, He's still the way

One word, one hand
Tell me is that too high a price
One awkward moment
Could be the one that saves a life
Your hurt, your scars
God will use to open up her eyes
One awkward moment
You'll see the gospel come alive

You've walked in her shoes
You've heard the lies, you know the pain

Come alive

But He's still the truth, He's still the life, He's still the way

Come alive

You've walked in her shoes
You've heard the lies, you know the pain

Come alive

But He's still the truth, He's still the life, He's still the way
Could this be the day that you come to the rescue?
