

Cat Clyde - All The Black

tom:
Capostrate na 1ª casa

Found you in the trash
Huddled in a corner
Across from me
You held out your hand
Told me?not?to be frightened
You?explained how we?d been thrown away
So?i let you take me home

[Chorus]

This may be killing us
But at least it kills the pain
If I could soak up all the black
I would soak up all the black
(E Am F7M)

[Segunda Parte]

Stayed the night
I Told the moonlight I was scared
And that I loved you
And I know you know this life is shit
But maybe I could keep you company

[Refrão]

This may killing us

But at least it kills the pain
If I could soak up all the black
I would soak up all the black
This may be killing us
But at least it kills the pain
If I could soak up all the black
I would soak up all the black

(E Am F7M)
(C E Am F7M)

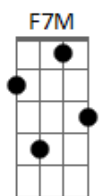

[Terceira Parte]

Let's roll a joint and walk outside
I miss the sunshine
I miss the sunshine
Woaaah
I miss the sunshine
I miss the sunshine

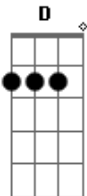

[Refrão]

This may killing us
But at least it kills the pain
If I could soak up all the black
I would soak up all the black
This may be killing us
But at least it kills the pain
If I could soak up all the black
I would soak up all the black
