

Cat Power - Back Of Your Head

Tom: **Ab**

(com acordes na forma de

Capostraste na 1ª casa

G)

from her 1998 album MOON

some variations on that (omitting the last note sometimes)

change:

"stands alone in most walks of life"

repeat that with some variations on open strings until you go back to the main theme

it basicly repeats those two parts alternating between them, just listen to the song to get the timing and all of the variations. Even through Chan Marshall uses a pick (thats what it sounds like to me) it sounds good fingerpicked too.
