Learning more and more about less and less and less

F D
On the edge of your seat in some dark movie

A E F
Can you memorize the scenes

D A E
They'll be different next week

F D A E
Can you tell me can you tell can you tell

F
If there's something better

D A E
'Cause you know there always is

F D A E

There always is

(é só repetir)

Drawn to the party like a spider filling up your guts
Don't hate the night with what you shouldn't have
Come along for the ride you just know you should
You just know you should
Can you tell can you tell can you tell
If there's something better
'Cause you know there always is
There always is

Hated to see you sad when I left
There's no good in that but the good part was
That I came out at all 'cause I don't venture out
Into the lives of the new
I want you to come along for the ride
How long will you stay for your whole life
You just know you should
Can you tell me can you tell me can you tell
if there's something better
'Cause you know there always is
There always is

Love and communication you were here for me
At this very moment 'cause I found you on the phone
You called me
And you were not hunting me
