

# Catfish And The Bottlemen - Anything

Tom: Gb

m (forma dos acordes no tom de Em)  
Capostrate na 2ª casa

It gets difficult to talk, when you nearly deafen me cause you start laughing  
 But if it means that we get through  
 And though you'll mix up every detail, of every story that you're ever gonna tell me  
 But if it means that we get through  
 Y?know I never wanna trouble you, when you're working so I always try to wait  
 But if it means that we get through  
 And when we drink it just gets funnier, and to be honest I don't mind us drunk  
 But if it means that we get through

[Refrão]

I won't smoke if you don't no more  
 Cause I know you hate the taste of it  
 I don't wanna picture our first born  
 If you've stopped discussing names with me  
 But if it means that we get through  
 Then you know I'm up for anything

Y?know I always try to settle you, when I'm away cause we struggle sometimes  
 But if it means that we get through  
 But if it means that we get through  
 But if it means that we get through

[Refrão]

I won't smoke if you don't no more  
 Cause I know you hate the taste of it  
 I don't wanna picture our first born  
 If you've stopped discussing names with me  
 But if it means that we get through  
 Then you know I'm up for anything

[Ponte]

Anything you need at any time at all I want you to phone me  
 'Cause everything you feel on every night alone is because you need me  
 Anything you need at any time at all I want you to phone me  
 'Cause everything you feel on every night alone is because you need me
