                                                               And I just come along for the Ride
        A Dbm E B
                                                                             Dbm
                                                                                    В
                                                               And I tried my best to keep away from you
        A Dbm E B
                                                               Tell your sister to wait
We let them knock like crazy cause I'd not seen her in months
              Dbm
She knew how to save me for the craic though carried on
                                                               Cause there?s no-one in the life I knew that got through to me
                                                               But when we talk about nothing you tend to lose me
I know I've pushed boundaries sometimes but she knows she?s
                                                               Cause there?s nothing in the life I knew that got through to
                      Dbm
I've missed this I was bound to
                                                               But when you scream about nothing yeah that?s when you lose me
        Dbm
And I've just came along for the Ride
              Dbm
                            В
                                                               I used to carry you through town
And I tried my best to keep away from you
                                                               You used to smother me in lippy
          Dbm
And you?ve just stepped off of a flight
                                                               Now if we ever get an hour together it's like I'm on the
                        Dbm
And now you beg for my company
                                                               outside
Cause y'know I?ll give it you all
                                                               I just come along for the Ride
Tell your sister to wait
                                                                               Dbm B
                                                               And I try my best to keep away from you
                                                                   Dbm
                                                              But just stepped off of a flight
Cause there?s no-one in the life I knew that got through to me
                                                                                      Dbm
But when you talk about nothing you tend to lose me
                                                               And now you beg for my company
Cause there?s nothing in the life I knew that got through to
                                                               Cause y'know I?ll give it you all
                                                               Tell your sister to wait
But when you talk about nothing yeah that?s when you lose me
                                                               Cause there?s no-one in the life I knew that got through to me
I used to carry you through town
                                                               But when you talk about nothing you tend to lose me
You used to smother me in lippy
                                                               Cause there?s nothing in the life I knew that got through to
Now if we ever get an hour together

We let them talk behind us cause I?d not seen her in months
                                                               I used to carry you through town
                Dbm
They knew how to find us for the craic though carry on
                                                               You used to smother me in lippy
                                                               Now if we ever get an hour together you act like you miss me
