

Cavetown - Devil Town V.2

tom:
 Capotraste na 2ª casa
 Intro: Am F C
 G F Fm Am

Life's alright in devil town
 Yeah, right, no one's gonna catch us now
 Dad has bought a new car now

We're fine, no one's gonna catch us now
 (Am)

We're all dead in devil town
 That's fine, 'cause nothing's gonna scare us now
 We're all in our dressing gowns
 Mines white and stripy, yours is green and brown

I forgot my name again
 I think that's something worth remembering
 Spiders in your favourite shoes
 Just leave them because they're more scared of you

Devil town is colder in the summertime
 I'll lose my mind at least another thousand times
 Hold my hand tight, we'll make it another night

I still get a little scared of something new
 But I feel a little safer when I'm with you

Falling doesn't feel so bad when I know you've fallen this way too

Life's a treat in devil town
 My ears have acclimated to the sound
 Pretty faces fly around and 'round my head
 As it contemplates this town I've found

It's lovely in the evening time
 But every time I close my eyes

The sunshine gets a little dimmer
 Now the clouds fall down
 I sink my teeth into my fingers
 Blossom swims across the river
 How do you feel so proud?

Every time I close my eyes
 The colours fade
 And change inside my mouth
 It's all too loud

I sink my teeth into my fingers
 Blood forms branches in the water
 It's lovely in the evening time
 But every time I close my eyes
 The sunshine gets a little dimmer

Now the clouds fall down
 I sink my teeth into my fingers
 Blossom swims across the river
 How d'you feel so proud?

Every time I close my eyes
 The colours fade
 And change inside my mouth
 It's all too loud

I sink my teeth into my fingers
 Blood forms branches in the water

Devil town is colder in the summertime
 I'll lose my mind at least another thousand times
 Hold my hand tight, we'll make it another night
 I still get a little scared of something new
 But I feel a little safer when I'm with you

Falling doesn't feel so bad when I know you've fallen this way too
