Cee Lo Green - Blackskin Mile

```
                            tom:
                       G

                  Cm F Gm
Hmm, well
Gm
I lost my shadow in violent sin
Never knew the search would be within
Eb              Cm
Drew a picture of my only desire
D                        D7
Take me back to Blackskin Mile
Gm
I thought my karma would be my fate
Never saw the sun until it was too late
Eb                       Cm
And oh, drew my loneliness, chasing every last high
D                        D7
Take me back to Blackskin Mile
Bb              Gm         F      Eb
I've never met a madman's soul, that I
              Gm         Cm              F
Didn't see reflections of that which I own
Bb                        Am      Gm
But I know there's something better outside
F   Eb        F                Gm
So won't you take me back to Blackskin Mile?
Gm
I walk a valley of a thousand streams
In retrieval of my self-esteem
Eb                Cm
I see a world in you where I may dream high
D                        D7
Take me back to Blackskin Mile
Bb              Gm      F
I have fallen but I kept my soul
Eb           Dm         Cm
Though I felt darkness in the light
                        F
I never let go
Bb                Gm            Bb     Eb
That last solitary seconds of my life, won't you
```

```
F                Gm
Take me back to Blackskin Mile?
Cm                    Gm
And with our resolutions high
Cm                    Gm
And with our pretty words in lies
Cm                        Bb
Survival comes with sacrifice
Eb
I run toward the burning
D                  D7
To feel alive, ooh
Gm
Found my shadow in a violent sky
And in my bleeding she'd watch me cry, Lord
Eb
Tears of happiness
Cm
My only one desire
D              F          Gm
Take me back to Blackskin Mile
        Cm
I said
F                    Gm
Take me back to Blackskin Mile
        Cm
One more time
F                    Gm
Take me back to Blackskin Mile
            Cm
Oh, yes
F                    Gm
Take me back to Blackskin Mile
Cm F Gm
Hmm-mm
Cm F Gm
Hmm-mm
Cm F Gm
Hmm-mm
Cm F Gm
Hmm-mm-mm
```
