

# Cee Lo Green - Music To My Soul

tom:

Intro: F Am G C Em  
 Where I come from  
 I've seen things that you wouldn't believe  
 But once your heart is there, you can never leave  
 I wrote this here for everyone to see  
 It was calling me, kept calling me  
 Even in darkness  
 Me and my fam from the dungeon found that light  
 And even in darkness  
 Despite what was wrong, everything turned out alright  
 Said whoa, when it gets real cold  
 We got fire and that's music to my soul  
 Said whoa, when the lights get low  
 We burn brighter and that's music to my soul  
 Even in darkness  
 Well look at me now, I'm everything that I wanted to be  
 But once your heart is there, you can never leave  
 A star in the sky for everyone to see  
 You can follow me, follow me  
 Even in darkness  
 Me and my fam from the dungeon found that light  
 And even in darkness

Despite what was wrong, everything turned out alright

Said whoa, when it gets real cold  
 We got fire and that's music to my soul  
 Said whoa, when the lights get low  
 We burn brighter and that's music to my soul  
 Well we got Jo and Mo and Gipp and 'Lo  
 And yes Big Rube, and Backbone, Organ No is Pat, Rico and Ray  
 And we've got the witch doctor and this cool breeze  
 And all the young homies from the dungeon east  
 I can't forget my brothers, Big and Dre  
 Even in darkness  
 Me and my fam from the dungeon found that light  
 And even in darkness  
 Despite what was wrong, everything turned out alright  
 Said whoa, when it gets real cold  
 We got fire and that's music to my soul  
 Said whoa, when the lights get low  
 We burn brighter and that's music to my soul  
 Said whoa, when it gets real cold  
 We got fire and that's music to my soul  
 Said whoa, when the lights get low  
 We burn brighter and that's music to my soul  
 Said whoa
