

# Céline Dion - Fade away

Tom: D

Intro: d: B A G

I learned from the past Not everything lasts I understand that  
 now  
 Everything changed When you walked away but I'll survive  
 somehow  
 Though I have regrets I'll learn to forget and just keep  
 moving on  
 Cause when love is gone You have to be strong  
 Once touched by pain you're not the same  
 But time can heal your heart again  
 So let the clouds that bring you down  
 Just fade away, away  
 So I try to smile But after a while the memories come back  
 But I won't give in cause I know that then my heart will fade

to black

And this time I learned that love can burn  
 There's no right or wrong I've got to be strong once touched  
 by pain  
 You're not the same but time can heal  
 Your heart again so let the clouds that bring you down  
 Just fade away, away  
 I know that one day I'll find that feeling again  
 But until I do I'll do fine by myself once touched by pain  
 You're not the same but time can heal  
 Your heart again so let the clouds  
 That bring you down once touched by pain  
 You're not the same but time can heal  
 Your heart again so let the clouds that bring you down  
 Just fade away, away
