

Céline Dion - Fade away

Tom: D

Intro: d: B A G

I learned from the past Not everything lasts I understand that
 now
 Everything changed When you walked away but I'll survive
 somehow
 Though I have regrets I'll learn to forget and just keep
 moving on
 Cause when love is gone You have to be strong
 Once touched by pain you're not the same
 But time can heal your heart again
 So let the clouds that bring you down
 Just fade away, away
 So I try to smile But after a while the memories come back
 But I won't give in cause I know that then my heart will fade

to black

And this time I learned that love can burn
 There's no right or wrong I've got to be strong once touched
 by pain
 You're not the same but time can heal
 Your heart again so let the clouds that bring you down
 Just fade away, away
 I know that one day I'll find that feeling again
 But until I do I'll do fine by myself once touched by pain
 You're not the same but time can heal
 Your heart again so let the clouds
 That bring you down once touched by pain
 You're not the same but time can heal
 Your heart again so let the clouds that bring you down
 Just fade away, away
