Chappell Roan - Kaleidoscope

to A	m: [Intro] <mark>Bm E</mark>	A7M	Bm	E It's never just a shape alone A7M
				Love is a kaleidoscope
Bm E Here we go again A7M				Bm E And if you over find
Everything is fine Bm				And if you ever find A7M Someone who could write
I guess we could pretend Bm				A better song for you
We didn't cross a line <mark>E</mark>				Bm Well, I'd love to see them try
But ever since that day A7M				E Put it all in words
Everything has changed				A7M And sing it all in tune
The way I write your name Bm				Bm There's no one else who could
The cursive letter A E				Bm The only one is you
Whenever it may be A7M				And if you change your mind A7M
That you go on your way Bm If you really wanna leave				I will understand Bm
I'll never make you stay				And it'll just take time Bm
E Whatever you decide				To go back to being friends
A7M I will understand				E And love is a kaleidoscope
Bm And it will all be fine				A7M How it works we'll never know
Bm Just go back to being friends				Bm And even all the change
E				Bm Is somehow all the same
And love is a kaleidoscope A7M				E Turning to the left and right
How it works we'll never know Bm And even all the change				A/M Colors shining in your eye Bm
Is somehow all the same				And even upside down
Turnin' to the left and right				It's beautiful somehow F
A7M Colors shining in your eye				Every color of the rainbow A7M
Bm And even upside down				Don't be afraid to hold it clo Bm
Bm It's beautiful somehow				It's never just a shape alone E A7M Love is a kaleidoscope
